

RE_ENTER UKRAINE

#COLLABORATION #INVITATION #UKRAINE

Ukraine has always been, is and always will be a natural economic partner for Poland. The bond between our nations, markets and economies is getting even stronger during this specific time and conditions. The Re_Enter Ukraine event is going to be a unique platform for building trade bridges between Polish and Ukrainian business, smoothing the flow of goods, services and innovative technological solutions in both directions.

We would like to invite you to meet with experts and professionals who are going to introduce you to export opportunities and current economic realities. Moreover, we recommend you the participation in the Polish-Ukrainian Business Mixer, i.e. B2B meetings, taking place after the substantive part of the event.

ŁÓDŹ SPECIAL ECONOMIC ZONE
